Education

Malla Reddy University   *August 2023 – Present*
Bachelors of Technology - Data Science

- GPA: 8.4 - 3rd Semester
- **Coursework:** Machine Learning, Deep Learning, Data Mining, Big Data Analytics, Statistical Modeling, Data Visualization, Database Systems, Cloud Computing, Artificial Intelligence, Probability and Statistics

Experience

Campus Ambassador   *Delhi, India*
GirlScript Summer of Code   *June 2025 – Current*

- Developed marketing efforts such as posters and social media ads to encourage student participation for campus events.
- Contributed articles, stories and photographs for campus newsletters and promotional material.

Android Developer Virtual Intern   *Remote*
Google for Developers   *June 2003 – Aug 2003*

- Expanded software proficiency and streamlined development processes through hands-on Android development
- Enhanced website usability by effectively blending technical skills with creative problem-solving approaches
- Contributed to multitasking initiatives and project assistance, showcasing strong organizational abilities
- Gained practical experience with Android frameworks, development tools, and best practices

Skills

Programming Languages: Java, Python, SQL
Web Development: HTML, CSS, React, TypeScript, Node.js
Design Development: UI/UX Design, Figma, Responsive Design, Mobile-First Development
Data Science: Data Analytics, Machine Learning, Data Visualization, Statistical Analysis
Tools and Platforms: Git, Project Management, AWS, Database Management

Projects

Task Management Dashboard   *link* ↗

- Comprehensive task management application with drag-and-drop functionality and real-time collaboration features.
- Tools used: React, TypeScript, Node.js, MongoDB

Data Visualization Platform   *link* ↗

- Interactive data visualization platform for business analytics with custom charts and real-time processing.
- Tools used: Python, D3.js, Flask, PostgreSQL

Mobile-First Design System   *link* ↗

- Comprehensive UI/UX design system with reusable components and design tokens for mobile and web applications.
- Tools Used: Figma, Design Tokens, CSS, JavaScript

Certifications and Training

Android Developer Virtual Internship   [link ↗](#)
Google for Developers   *JULY - SEP 2024*

- Comprehensive training in Android development practices and Google's development frameworks

AWS Academy Graduate   [link ↗](#)
AWS Academy Cloud Foundations   *January 01, 2025*

- Professional certification demonstrating cloud computing fundamentals and AWS services knowledge.

Data Science Analytics   [link ↗](#)
HP Foundation   *November 29, 2024*

- Advanced training in data analysis techniques and statistical methodologies.

Data Analytics Job Simulation   [link ↗](#)
Deloitte   *July 9th, 2025*

- Practical experience in data analysis and forensic technology applications in professional consulting environment.

Honors Extracurriculars

- UI/UX Design Excellence – Multiple design projects showcasing creative problem-solving
- Project Leadership – Leading role in collaborative development projects
- Community Engagement – Active participation in tech community initiatives

Languages

- Fluent in English
- Native proficiency in Telugu
